- Wines are maintained at their proper serving temperature. Enables storage of red (top), white (middle), sparkling (bottom) wines simultaneously.
- Generous storage capacity.
- Provides additional security.
- Fits any location – easy access.
- All bottles removable at 90° door opening.
- Provides custom look. No additional clearance around sides, top, or rear for ventilation. **Do not obstruct front grille.**
- Protects your wine from light.
- Proper storage keeps cork moist.
- Permits light to be on with door closed for viewing besides illuminated when door is opened.
- Ability to adjust temperature.
- More precise undercounter fit – durable – installed at factory.
- Textured rich look, more resistant to scratching, peeling, or flaking.
- The elegant look of the brushed aluminum door frame and handle with textured black vinyl cabinet and black grille provides a stainless look when built-in under counter.
